Define the Problem Statements

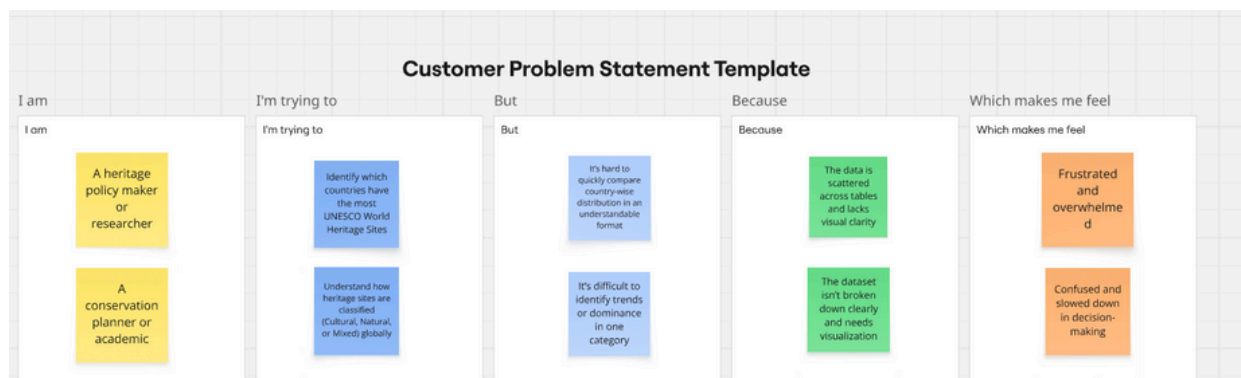

Date	31January 2025
Team ID	LTVIP2025TMID51841
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	2 Marks

Customer Problem Statement Template: Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - <i>who are they?</i>	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - <i>what are they trying to achieve?</i>	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - <i>what bothers them most?</i>	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - <i>what needs to be solved?</i>	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - <i>how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A heritage policy maker or researcher	Identify which countries have the most UNESCO World Heritage Sites	It's hard to quickly compare country-wise distribution in an understandable format	The data is scattered across tables and lacks visual clarity	Frustrated and overwhelmed
PS-2	A conservation planner or academic	Understand how heritage sites are classified (Cultural, Natural, or Mixed) globally	It's difficult to identify trends or dominance in one category	The dataset isn't broken down clearly and needs visualization	Confused and slowed down in decision-making
